Inside Log Help For Those Into Log Buildings

SANSIN COLOR OF THE YEAR: ONYX

[Sansin](#) has announced Onyx as their 2024 color of the year. In deciding, they conducted an analysis of some of the unique projects and photos. Onyx performs beautifully on a variety of wood substrates and is demonstrated in a number of Sansin's exterior formulations including [Classic](#), [SDF](#), [Dec](#), and [ENS](#). Onyx is a confident, courageous color and pairs well with many [unique Sansin colors](#) such as Aztec, Chesapeake, and Primary Yellow.

Even the deep charcoal color of Onyx doesn't sacrifice what we all love most about building with wood – the character. Onyx highlights the wood grain while protecting the wood from UV and water damage.

NEW KUPILKAS

KUPIILKA 30: TALL CUP

A minimalistic handleless cup for the urban adventurer. The cup has three built-in ridge lines that make it ergonomic and sturdy to hold and improve its durability and insulation properties. 4.57" x 3.23" x 3.23" and holds 10.14 oz. **Made in Finland.**

Moomintroll is a cheerful little fellow who's interested in everything. The world is full of exciting things to investigate but he particularly loves collecting rocks and shells. He also loves the sea as does the whole Moomin family. He is a dreamer and a thinker, and the maverick vagabond Snufkin is his best friend. "He thought how passionately he loved everything, the forest and the sea, the rain and the wind, the sunshine and the grass and the moss, and how impossible it would be to live without them." *Comet In Moominland (1946).*

Blue Moomintroll T089-3030LM115 \$29.94

KUPIILKA 37: 2-1 DRINKING CUPS

Along with Snufkin, we've added Moominmamma (in red) and Moominpappa (in blue). Snufkin is a philosophical vagabond who wanders the world. Moominmamma is gentle and nurturing with a rebellious streak and a great love of fun. Moominpappa is restless for adventure and excitement but honorably always tries to fulfill his duties. Are Moomins hippos? No, though sometimes mistaken for hippos, they are their own "species" of white, roundish trolls. **Made in Finland.** 12.5 fl oz • Weight 4.7 oz • Height 2.9", Width 4.4", Length 7.9". Great for soup or oatmeal, as well as a big cup of coffee.

All Colors \$24.00 each \$27.00 for Snufkin, Mamma, & Pappa

TOOL TALK: BELGIAN BLUE WHETSTONES

NEW

BELGIAN BLUE CARBORUNDUM COMBO STONE

Belgian Blue whetstone (4000 grit) bonded to synthetic Carborundum with 600 grit. Use the Carborundum side to do the hard work of restoring a blunted edge and the Belgian Blue side to do the real sharpening and final honing. **Made in Belgium.**

6" x 1 5/8" T217-COMBOSTONE \$120.00

[Order Online](#)

BELGIAN BLUE CARBORUNDUM COMBO STONE

Discover the pleasure of sharp tools using a legendary, natural sharpening stone known since Roman times, quarried and fabricated in the Ardennes Region of Belgium. Amazing combination of speed and fineness of cutting. You may not believe it until you see it!!! No burr! The remarkable cutting abilities of the stones are due to their embedded hard, rhomboid-shaped garnet crystals, millions of them, which both cut and hone, rolling underneath the steel. So durable are these stones that you may pass them on to your grandchildren.

The blue is equivalent to 4000 grit; just add water and go. Never use dry. The stone is non-porous and is used with water only. Belgian Blue whetstones can sharpen any kind of steel, including stainless steel and high speed steel (HSS), such as knives, chisels, scissors, axes, adzes, draw knives and more.

The stones contain a large percentage of garnet crystals. Garnet is only third in hardness behind diamond and corundum (ruby and sapphire), giving these stones their fast cutting action. The soccer-ball faceted shape of the garnet crystals provides an ideal cutting angle.

The crystals cut lightly into the metal, producing very fine shavings. The garnet crystals are only 10-15 microns in diameter, and penetrate about 2-3 microns into the metal. The crystals' edges cut lightly into the metal producing very fine shavings, while the following flat facets cut the resulting burrs (wire edges), effecting the polish or hone. All in one stroke! **Made in Belgium.**

6" x 1 5/8" T217-BELGIANHON \$72.00

8" x 3 3/4" T217-BELGIANWHE \$147.00

APRIL SALES!

WR-5 WOOD STAIN

A good choice for those looking for a semi-transparent finish that is comparable to what many call the "Old Forestry Mixture". Good for high-humidity areas and fences, decks, railings, shakes, shingles, and outdoor furniture. **Application Temp:** 50°-80° F. **Coverage:** 200-400 sq. ft. per gal. **Cleanup:** Mineral spirits. **Made in the USA.**

| | 1 gal. | 5 gal. pails |
|--------|----------------------------|-------------------------------|
| Clear | \$72.99 \$65.69 | \$346.99 Sale \$312.21 |
| Colors | \$77.99 \$70.19 | \$356.25 Sale \$320.63 |

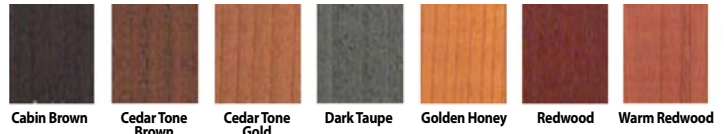

⊘ Prohibited in: AZ (Maricopa County), Canada, CA, CT, DC, DE, IL, IN, MA, ME, MD, MI, NJ, NH, NY, OH, PA, RI, VT, and the North East corner of Virginia: Counties: Arlington, Fairfax, Loudoun, Prince William, Spotsylvania, and Stafford Cities: Alexandria, Fairfax, Falls Church, Fredericksburg city, Manassas & Manassas Park.

X-100 DECK STAIN

protects new, faded, dense, and seasoned pressure-treated, cedar, redwood and other hardwood decking lumber. It enables the natural wood grain to show through. In the case of an old deck (more than 3 years old), the wood grain has had an opportunity to be exposed to general weathering conditions that naturally open its pores. X-100 Deck Stain has been recommended for use on such surfaces, as the first and only step (resealing every 2-4 years as necessary). **Application Temp:** Apply above 50° F. **Coverage:** 200-400 sq. ft. per gal. **Cleanup:** Mineral spirits or dish detergent & water. **Made in the USA.**

| | 1 gal. | 5 gal. |
|--------|----------------------------|------------------------------|

SAPSTAIN CONTROL

SAPSTAIN CONTROL is the use of specially formulated wood treatment products that are used to protect peeled logs from mold and stain causing fungi. Mold, mildew, and sapstain increase the wood's ability to hold water, thus increasing chances of decay.

As house logs or timbers are peeled or sawn, their surfaces are susceptible to sapstain fungi. Fungi are tiny, threadlike organisms, which utilize wood, or carbohydrates stored in wood cells, for food. Besides food, fungi require the presence of air (oxygen), water and warm temperatures to survive and grow. These fungi, as they move through the wood, can leave behind a colored stain of blue, black, red or brown. It is most commonly known as Blue Stain.

FOR HOMEOWNERS:

We offer [Timber-Tec](#) and [TM-5 First Treat](#).

FOR CONTRACTORS:

We offer [Timber-Tec](#), [TM-5 First Treat](#) as well as the more heavily concentrated for industrial use [PQ-80](#) and [StaBrite P](#).

“Do you remember the Shire, Mr. Frodo? It’ll be spring soon. And the orchards will be in blossom. And the birds will be nesting in the hazel thicket. And they’ll be sowing the summer barley in the lower fields... and eating the first of the strawberries with cream. Do you remember the taste of strawberries?”

- J.R.R. Tolkien, *The Return of the King*

SMART STRIP PRO PAINT REMOVER

The “top of the line” Smart Strip product that strips 20+ layers of oil, latex, and acrylic-based paints, varnishes, stains, and coatings, usually in one application. Recommended for the most difficult paint removal projects and is versatile enough to work on virtually all interior and exterior surfaces: wood, brick, stone, metal, marble, terracotta, granite, terrazzo, concrete, plaster, cement, copper, tin, enamel, slate, cast iron, and more!

Smart Strip PRO Paint Remover is easy to use. A product test before you begin will help determine the best dwell time for your project. Simply apply Smart Strip PRO to the desired area for removal and let the product do its work for up to 24 hours. Remove with a scrapper or pressure washer and clean area thoroughly with water. Simple! Covering with [Dumond Laminated Paper](#) (sold separately) to keep the product in a wet state and speed the removal process.

WORKS ON VIRTUALLY ANY SURFACE!

Smart Strip PRO Paint Remover has been trusted to handle major restoration projects on historic buildings and landmarks, government facilities, and opera and music halls worldwide! Unlike other paint removers, Smart Strip PRO does not contain dangerous Methylene Chloride or hazardous NMP. Rated “best in class” by many paint and restoration specialists. Acclaimed by architects, contractors, and painting professionals. **Made in the USA.** **Application Temp:** 40°-90° F. **Coverage:** 40-45 sq. ft. per gal. **Cleanup:** Soap & Water. **1 gal. P049-3351 \$73.99**
